Availability: 1st Feb, 2027 · Open to internship · International student (VLS-TS)
Languages: English (fluent) · Nepali (native) · French (A1)

CAREER PROFILE

Master's student in Data Science and Network Intelligence at Télécom SudParis (dual degree with AIT), with an MBA in Finance and 1.5+ years of product delivery experience. I bridge business strategy and AI engineering to translate complex business needs into ML and GenAI powered solutions that drive actionable insights and measurable business outcomes. Seeking an AI Product Owner internship to turn AI capabilities into meaningful product value.

SKILLS SUMMARY

Technical bridging: Generative AI, Prompt Engineering, Agentic Workflows, API Integration, Low-Code Automation, Responsible AI, Data Storytelling
Product & delivery: AI Product Strategy, Roadmapping, User Stories & Backlog, KPI Definition, Agile/Scrum, Jira, Trello
Soft skills: Stakeholder Management, Cross-Functional Collaboration, Business–Tech Translation, Communication, Ownership, Adaptability

WORK EXPERIENCE

Webpoint Solutions – Associate Project Manager July 2023 - Sep 2024

- **Delivery:** Led 7 projects end-to-end (5 shipped to production).
- **Product:** Translated business needs into requirements, backlog items, and engineering tasks.
- **Agile:** Ran stand-ups, sprint planning, and retrospectives with clients and developers.
- **Ownership:** Managed remote freelance projects (timelines and budgets); work showcased in my portfolio.

Mid-Valley International College – Senior Marketing Officer Oct 2021 - Dec 2022

- **Growth:** 30% lead conversion through digital admission campaigns.
- **Partnerships:** Built 46+strategic partnerships (schools, consultants, alumni).

National Life Insurance Company – Bancassurance Officer July 2018 - Sep 2019

- **Sales:** Rs. 25M in semi-annual premiums across 10 bank branches (84% of target).
- **Enablement:** 30+ trainings (+60% insurance sales); facilitated 3 bank-insurer MOUs.
