

SHUVAM SHRESTHA

AI Product Management & Data Analytics Internship

Contact: Évry,France · +33 78-17-00-162 · sendtoshuvam@gmail.com ·linkedin.com/in/shuvam-shrestha · shuvamshrestha.com.np
Availability: 1st Feb, 2027 · Open to internship · International student (VLS-TS)
Languages: English (fluent) · French (A1) · Nepali (native)

CAREER PROFILE

Dual degree Master's student in Data Science and Network Intelligence at Télécom SudParis - Information Management at AIT. Combining a finance-focused MBA background with 1.5+ years of cross-functional product delivery experience, I bridge business strategy and AI engineering to translate complex business needs into ML- and GenAI-powered products, actionable insights, and measurable KPIs, with project experience spanning credit-risk intelligence, LLM automation, and real-time alerting systems. Seeking an AI Product Owner / AI Product Management internship to help build and scale data-driven products that solve meaningful business problems.

EDUCATION

TélécomSudParis – Institut Polytechnique de Paris, France Sep 2026–present
MSc in Data Science & Network Intelligence (DANI dual-degree program)

GLOF Early Warning System | IoT & Digital Twins · Group project

- Architected an early-warning system for glacial lake outburst floods in Himalayan lakes: MQTT ingestion into InfluxDB, validation, hazard engine, risk analysis and alert orchestration, with operator review before ministry notification via Telegram.
- Designed for sensor disruption (queue policy, sensor watchdog, heartbeat-loss siren); documented in C4 diagrams revised after professor feedback; built a real-time Next.js dashboard.

Technologies: n8n, MQTT, Eclipse Mosquitto, InfluxDB, Docker, Next.js, Telegram, C4

Relevant skills: IoT data pipelines, System architecture (C4), Real-time alerting, Risk scoring, MQTT, InfluxDB, n8n, Docker, Next.js

Asian Institute of Technology, Thailand Aug 2025 – present
M.S. in Information Management – Data Science & AI

Buy Now Pay Later Credit Risk Decision-Support Platform | Fintech

- Designed and developed interactive Tableau dashboards to visualize key business metrics, uncover actionable insights, and support data-driven decision-making.
- Demonstrated dashboard functionality through a locally run prototype.

Technologies: Tableau, Data Visualization, Dashboard Design, KPI Analysis

Air Quality Alert System | Data Engineering & MLOps

- Built an end-to-end pipeline covering data ingestion, PM2.5 forecasting, model training and automated alerting.

Technologies: Python, MLOps, Time-Series Forecasting

Cold Lead Conversion Prediction | Machine Learning

- Built and compared classification models to predict lead conversion, linking outputs to sales prioritization and go-to-market decisions.

Technologies: Python, Scikit-learn

Relevant skills: Machine Learning, Predictive Analytics, Time-Series Forecasting, MLOps, Data Visualization, Python, SQL, Tableau, Power BI

Purbanchal University, Nepal Jul 2020 – Jul 2024
Master of Business Administration – Finance
Relevant skills: Financial Analysis, Credit Risk, Financial Modelling, Business Cases, Market Analysis

PERSONAL AI PROJECTS (SELF-DIRECTED LEARNING)

AI Voice Portfolio & Job Application Agent | GenAI Product

- Building a portfolio where recruiters talk to a speech-to-text AI agent(n8n workflow + local Ollama model), with separate guest and recruiter flows and Telegram approval for private content.
- Designing a Job Application Agent that turns a job link into a role-tailored CV.

Technologies: n8n, Ollama, Speech-to-Text,Telegram, Docker

LLM Workflow Automation

- Built n8n pipelines with local Ollama and Gemini models: YouTube trend analysis into Google Sheets and RSS-to-AI-summary into Supabase, using structured-output parsing.

Technologies: n8n, Ollama, Gemini, Supabase, Google Sheets, Docker

WORK EXPERIENCE

Webpoint Solutions – Associate Project Manager 2024 – 2025

- Led end-to-end delivery of 7 projects (5 shipped to production), coordinating clients, developers and change requests across the full delivery lifecycle.
- Translated business requirements into product requirements and engineering tasks as the primary link between business and technical stakeholders; ran Agile/Scrum ceremonies (stand-ups, sprint planning, retrospectives).

Relevant skills: Agile/Scrum, Sprint Planning, Backlog & Requirements Translation, Stakeholder Management, Jira, Trello

Mid-Valley International College – Senior Marketing Officer 2021 – 2022

- Lifted lead conversion by 30% through digital admission campaigns; built and maintained 46+ strategic partnerships with schools, consultants and alumni networks.

National Life Insurance Company – Bancassurance Officer 2018 – 2019

- Drove Rs. 25M semi-annual premium revenue across 10 partner bank branches (84% of targets); delivered 30+ training sessions that contributed to a 60%increase in insurance sales; facilitated 3 bank-insurer MOUs.
